Photos from your

gallery: (Ref gallery #)

Music Style

Preference

Your Instagram Reel will be a slideshow of 15-20 images of your choosing, or our team can choose the photos we think fit best within the format. We will add in music to the video (Chill, Cinematic, Electronic, Jazz/Lounge, Pop), or if you would prefer to add music in from the choices on Instagram that is fine too! The video will be formatted in the 9:16 aspect ratio that IG reels display in, so please keep this in mind when choosing your photos.

Instagram Reel video is \$125, with two rounds of edits included in the process. Turnaround time is within 24 hours of the request, often much sooner!
